

Mechanical Design Technician

Creative Surfaces, Inc. is a diverse business that is a high-end designer of all types of commercial casework, cabinetry, fixtures, and countertops, as well as custom interior and exterior signage. Our signage and cabinetry are so intricate that we also cater to the casino industry by supplying them with game cabinets & game specific signage. We are one of the top companies in the United States that manufactures and installs all of our own projects.

Creative Surfaces, Inc is looking for a detail oriented Mechanical Design Technician in our Sioux Falls Signage Division. This role will be responsible for projects from concept, development, through the manufacturing process as well as periodically providing engineering support to field install teams and/or customer support.

Essential Qualifications:

- An Associates Degree in Design & Drafting Technology or related field and a minimum of 1 year of relevant experience.
- Experience reading and creating production prints.
- Attention to detail needed to create accurate production documentation and programming of production machinery to achieve a successful final product.
- Self-motivated to work independently as well as part of a team.
- An organizational system to effectively manage multiple projects simultaneously.
- Effective verbal & written communication skills.
- Must be able to predict task time requirements and meet deadlines.
- Perform all other duties assigned.

Additional Desirable Qualifications:

- Programming production machinery (laser, press brake, etc) experience.
- Sheetmetal & metal working experience.
- Plastic forming experience.
- AutoCad experience.
- Basic electrical knowledge.
- Experience in interior or exterior signage industry.

Compensation & Benefits

- Top salary for top talent
- Health, vision, dental and life insurance
- Paid vacation
- Paid holidays
- 401K w/ company match
